

Question and Answers

NOTE: Some entries submitted in the Q&A box, are indeed “contributions”. Therefore we moved these contents to the “Interactions with participants” report (https://www.lift-bbi.eu/imagem/interactions_webinar3.pdf).

Question (Kate) → What does CSA stand for?

Answer from LIFT → Coordination and Support Action, here you can find more information

https://ec.europa.eu/research/participants/data/ref/h2020/other/wp/2018-2020/annexes/h2020-wp1820-annex-d-csa_en.pdf

Question (Pietro)> How many projects have been analysed by LIFT?

Answer from LIFT →

Actually 62, including: BECOTEPS BIOPROM CommFABNet SAT-BBE BIO-TIC BERST ProBIO BioStep CommBeBiz InnProBio BioLinX BIOWAYS STAR4BBI BioCannDo BioReg RoadToBio Pilots4U BIOPEN BLOOM BIOVoices BIOBRIDGES ICT-BioChain POWER4BIO BE RURAL LIFT CELEBio UrBIOfuture BISO CASA Enabling ERIFORE KETBIO SHERPA BIOEASTsUP BIOSWITCH ALLTHINGSBIO.PRO S2BIOM OPEN-BIO SUPERBIO STAR-ProBio RUBIZMO BIOMONITOR BioBaseNWE GBO BioBase4SME Green Growth

AlpBioEco DANUBIOVALNET Baltic ForBio RDI2CLuB SMARTPILOTS BIOREGIO BIO4ECO ERASMUS+ ABBEE

Question (Kate)> These gaps and recommendations are excellent thank you!

Answer from LIFT →

Thanks! Please consider that the full version of the documents, in the form of Fact Sheets can be found in the LIFT bioeconomy library, together with the most relevant outcomes of the CSAs analysed: <https://www.bioeconomy-library.eu/> Selecting the topic you are interested in you will enter the thematic pages where to download the related Factsheets.

1. Awareness raising (<https://www.bioeconomy-library.eu/awarenessraising/>)
2. Bioeconomy Education (<https://www.bioeconomylibrary.eu/bioeconomy-education/>)
3. Stakeholders engagement and co-creation (<https://www.bioeconomylibrary.eu/stakeholders-engagement-and-co-creation/>)
4. Standardisation, LCA, labelling and regulatory hurdles (<https://www.bioeconomy-library.eu/standardisation-lca-labelling-andregulatory-hurdles/>)
5. Regional potential and bioeconomy strategies and implementation action plans (<https://www.bioeconomy-library.eu/regional-potentialand-bioeconomy-strategies-and-implementation-roadmaps/>)
6. Uptake of RTD results (<https://www.bioeconomy-library.eu/uptake-ofrtd-results/>)
7. Foresight, market studies and market roadmaps (<https://www.bioeconomy-library.eu/foresight-market-studies-andmarket-roadmaps/>)
8. Biomass availability, quality, supply and sustainability (<https://www.bioeconomy-library.eu/biomass-availability-qualitysupply-and-sustainability/>)
9. New value chains and business models (<https://www.bioeconomylibrary.eu/new-value-chains-and-business-models/>)
10. Open innovation platforms and facilities (<https://www.bioeconomylibrary.eu/open-innovation-platforms-and-facilities/>)
11. Industrial road-mapping (<https://www.bioeconomylibrary.eu/industrial-roadmaps/>)

Question (Nicoline)> Will this webinar be shared afterwards? I have too many problems with sound.. would love to either read back on it, or view it later.

Answer from LIFT → yes, the recording will be available in this page

Question (Maite)> Will the slides be available?

Answer from LIFT → yes, here you will find everything here

<https://www.liftbbi.eu/webinars/events/webinar-1-awareness-raising-communication-education-andstakeholders-engagement/>

Question (Ilaria)> Do you have already implemented any actions for addressing societal and consumer requirements and concerns?

Answer from LIFT → This is out of LIFT scope, but projects like Biobridges, BIOVOICES, BIOWAYS, BioCannDo and a new project, funded by BBI JU that will start in September 2020 are addressing these topics.

Question (Chiara)> where Mrs Martines works?

Answer from LIFT → At the company Sustainable Innovations (SIE), and in the project UrBIOfuture

Question (Michael)> It would be great if you would send the link to the slides to all registered participants

Answer from LIFT → sure we will! and we will also put everything here

<https://www.liftbbi.eu/webinars/events/webinar-1-awareness-raising-communication-education-andstakeholders-engagement/>

Question (Julia)> Where can I have more information about the bio-based economy master course programmes available in Europe?

Answer from LIFT → Here you can find all the programmes that we identified:

https://www.urbiofuture.eu/educational_programmes/

Question (Mercede)>Where is the european bioeconomy university based? and what is the objective of this university?

Answer from LIFT → The European Bioeconomy University is a new alliance of the six leading European universities here you can find all the info and contacts:

<https://europeanbioeconomy-university.eu/>

Question (Ja)> How can the European Community of Practice Bioeconomy education get in touch with the people that are busy with bioeconomy education?

Answer from LIFT → We suggest you connect with UrBIOfuture to exchange information and maybe explore opportunities for collaboration

Question (Schwabe)> How do you reach primary schools locally, via a European CSA?

Answer from LIFT → In UrBIOfuture we have held workshops with high school students at local level, leveraging the contacts that our consortium partners have, and we have joined activities organised by other projects. For example, we joined the 4th Conference of Raw MatTERS Ambassadors at Schools that took place in Bologna, Italy, in November 2019, where hundreds of students between 10 and 19 years old participated. Projects like BLOOM (<https://bloom-bioeconomy.eu/>), URBIOFUTURE (www.urbiofuture.eu) and BIOWAYS (<http://www.bioways.eu/>) developed several material for schools.

Please check also the LIFT Fact Sheet in Bioeconomy education (<https://www.bioeconomy-library.eu/bioeconomy-education/>) and awareness raising (<https://www.bioeconomy-library.eu/awareness-raising/>) for good examples and information about these and other relevant projects.

Question (Anna)> Will you be looking at further projects with LIFT?

Answer from LIFT → Not within the lifetime of the LIFT project, Anna. But your project AlpBioEco was one of the 62 projects analysed. It is discussed in the factsheet no. 9: New value chains and business models (<https://www.bioeconomy-library.eu/new-value-chainsand-business-models/>) on value chains)

Question (ECRN) >Do you have any example on how to increase communication on bioeconomy at regional level?

Answer from LIFT → Projects like BIOVOICES, Be-Rural, Power4Bio and Sherpa are tackling this question. Please see the LIFT fact sheet about Awareness raising and Communication (<https://www.bioeconomy-library.eu/awareness-raising/>) for more info and Regional potential and bioeconomy strategies and implementation action plans (<https://www.bioeconomy-library.eu/regional-potential-and-bioeconomy-strategiesand-implementation-roadmaps/>) for more info.

Question (Julia) Who I have to address to join the network?

Question (Dora) How can we become part of the network?

Answer from LIFT → This is the link to the European Bioeconomy Network, where you can find more information about it. <https://eubionet.eu/>

Here you find the contact form: <https://eubionet.eu/contact-us/>

Question (Iakovos) Please share more info for the sherpa project

Answer from LIFT → This is the project's page in the Bioeconomy Library

<https://www.bioeconomy-library.eu/sherpa-sustainable-hub-to-engage-into-ruralpolicies-with-actors/>

Question (Silvia)> could be possible to have the list of the recommendation provided by the participants for each question?

Answer from LIFT → Yes, they are available here:

<https://www.liftbbi.eu/webinars/events/webinar-1-awareness-raising-communication-education-andstakeholders-engagement-/>

Question (Isabella)> Can you write here the name of all speakers of today?

Answer from LIFT → Yes (in order of speech):

Susanna Albertini (albertini@fvaweb.it) - FVA - LIFT Project's partner

Alexandre Almeida (alexandre@loba.pt) - LOBA - LIFT Project's coordinator

Aleix Barrera Corominas (Aleix.Barrera@uab.cat) - UAB - UrBIOfuture Project's coordinator

John Vos (vos@btgworld.com)- BTG - LIFT Project's partner

Ana Martinez (anamartinez@sustainableinnovations.eu) - Sustainable Innovations (SIE) - UrBIOFuture communications manager
